UID EX 5

Task Analysis – Bus Booking System

Task Analysis is the process of breaking down a user's interactions with a system into smaller, manageable steps to understand how users achieve their goals. It helps in identifying user needs, pain points, and areas for improvement.

Key Aspects of Task Analysis:

- Understanding what tasks users perform in the bus booking system.
- Identifying the sequence of actions required to complete ticket booking.
- Analyzing user pain points such as payment failures or cancellation issues.
- Defining system requirements to improve user experience and efficiency.

User Flow – Bus Booking System

User Flow is a visual representation of how users navigate through the bus booking application to complete ticket booking. It shows the steps users take from entering trip details to booking confirmation or cancellation.

User Flow for online Bus Booking System

Start → Open App → Login/Register → Enter Source & Destination → Select Travel Date → Search Buses → View Bus List → Select Bus → Select Seats → Check Seat Availability → Enter Passenger Details → Choose Payment Method → Payment Confirmation → Ticket Confirmation → Download/View Ticket

User Flow Steps for Bus Booking System

1. Step 1: Start – User opens the bus booking application.
2. Step 2: Enter Trip Details – User enters From location, To location, Date, and number of Passengers.
3. Step 3: Search Buses – System displays available buses.
4. Step 4: View Results – User views available bus options.
5. Step 5: Filter/Sort (Optional) – User filters or sorts buses based on preference (price, timing, etc.).
6. Step 6: Select Bus/Seat – User selects preferred bus and seat.
7. Step 7: Enter Passenger Details – User enters required passenger information.
8. Step 8: Login/Signup (Optional) – User logs in or creates an account if required.
9. Step 9: Choose Payment Method – User selects preferred payment method.
10. Step 10: Make Payment – User proceeds with payment.
11. Step 11: Payment Status – System checks if payment is successful.
12. If Payment Successful → Booking Confirmed → E-ticket/QR Code Sent → User can View/Manage Booking.
13. If Payment Failed → Retry Payment or Choose Different Payment Method.
14. Step 12: Cancel Booking (Optional) – User may choose to cancel the booking.

15. If Cancelled → Initiate Refund → Refund Processed → End.
16. Step 13: End – Booking process is completed.
